

Safe-IT Multi-Device UV Charging Cart, Hospital-Grade, 32 AC Outlets, Laptops, Chromebooks, Antimicrobial, White

MODEL NUMBER: CSC32ACWHG

Charges, secures, organizes and sanitizes up to 32 Chromebooks and laptops in healthcare, education, retail, warehouse and office settings.

Features

Mobile Charging Cart Accommodates up to 32 Chromebooks and Laptops This 120V charging station provides AC charging, secure storage, cord management and surface sanitization for as many as 32 Chromebooks and laptops with a screen size up to 15 inches. The connected devices' AC adapters plug into 32 NEMA 5-15R outlets for charging. A built-in circuit breaker protects the devices against overloads. The laptop charging station is recommended for healthcare facilities, classrooms, businesses, government agencies, restaurants, hotels and anywhere else that uses mobile devices on a daily basis.

UV Light Helps Sanitize Devices without Potentially Dangerous Heat, Liquids or Chemicals The CSC32ACWHG helps reduce the presence of germs on Chromebooks, laptops and tablets. Built-in ultraviolet lights help disinfect electronic devices at the touch of a button by destroying most microbes without the use of damaging heat, liquids or chemicals. The germicidal UVC bulbs are on a timer to control the amount of UV exposure the devices receive. An LED on the exterior of the cabinet indicates when the doors are closed and the start button can be pressed to activate the 10-minute timer. A second LED indicates when the UVC lights are on. If a door is opened during sanitization, the lights automatically shut off for safety.

Exclusive Antimicrobial Protection Fights Surface Bacteria The charging cabinet's interior and exterior surfaces are protected by an antimicrobial coating which helps prevent the growth of bacteria, viruses, fungi, mold and mildew. The coating meets the requirements of JIS Z 2801:2000, an international standard for evaluating efficacy in antimicrobial products.

Locking Steel Enclosure Keeps Valuable Equipment Safe and Secure Constructed from heavy-duty steel, this charging cart provides safe, secure storage. The split front doors lock with the included keys to help prevent theft, damage and tampering. For extra security, the front door can be fastened with a user-supplied padlock. Flow-through ventilation helps protect against overheating, and the specially coated shelves help prevent device scratches and scuffs.

Moving Your Devices from Room to Room Is Easy Four pre-installed swivel casters with large non-marking wheels improve the ride over uneven surfaces, including carpeting and thresholds, and lock to help prevent unwanted movement. The reversible wide-grip handle makes the cart easy to control.

Well-Organized to Avoid Confusing Cable Clutter Cables and connectors run through strain relief bushings, keeping them organized and out of the way, and are protected by blanking panels. Adjustable dividers accommodate up to 16 devices per shelf. Front doors open at least 180 degrees to allow maximum access to the interior. A power cord wrap keeps the input cord out of the way when moving the charging station. Access grommets allow the 10-ft. (3.05 m) cord with hospital-grade NEMA 5-15P plug to extend through either side of the cart, allowing great flexibility in reaching AC outlets.
