

Product Change Notice: GSM40~220 Series, Indicator Light Color Change

Date : 2020/02/18

By Frank Chen/ Product Manager

Frank@meanwell.com

As the medical regulations IEC60601-1 Chapter 7.8.1 require the LED indicator light of medical products to be green, MEAN WELL changed the color of the medical adaptor GSM40 ~ 220 series from blue light to the green light (refer to the illustrations below for details). The change has been implemented since 2019/7, and there will be a transition period of the inventory.

MEAN WELL will fully absorb the costs incurred from this upgrade and will not increase the product price. If you have any questions, please check the updated product datasheet on the MEAN WELL website or contact your MEAN WELL sales representative.
