Product Change Notification: E-20-005525

PCN Date: 29-APR-20

TE would like to inform you of the following change(s) to the listed TE Connectivity Product. In case of any further questions about this change(s), please contact your TE Connectivity Sales Engineer. Affected part, drawing and/or specification numbers are listed on the attached sheet(s).

General Product Description:

Deutsch DT/DTF/DTM series Connectors. This is amended PCN to E-19-013521 was missing parts affected due to system issue.

Description of Changes

The Industrial and Commercial Transportation business unit of TE Connectivity is making a supplier and a process change to the part numbers listed below. The current process is using pre-colored raw material, the new material is going to be colored at the molding press. These products listed below are catalog products. Please provide us with your immediate approval to prevent shipment delays. PPAP and/or sample requests must be submitted within 14 days of PCN submission via ict-ppap-request@te.com or ePPAP system. Submission will not occur without request. If PPAP requested, disposition response is required within 14 days of submit date or it will be considered approved. Product drawings are not affected.

Reason for Changes:

Product Improvement. Dear Customer, we hereby inform you of this process change. The change is necessary as current supplier is a single source supplier and will no longer supply pre-colored raw material. To address the supply restrictions TEC is implementing supplier and process change. The current and the new raw material is Nylon 4-6 30GF, however the new raw material will be colored at the moldings press. The change does not impact performance. IMPORTANT: The current and previous revisions of these parts can be used interchangeably in the field. This change is being phased-in gradually and the previous revision can remain stocked until use. Shipments of both configurations may be mixed.
