

Product Change Notification

To: Sales, Sales Representatives and Distributors

Date: March 10, 2011

Series: Sensor

Effectivity: February 1, 2011

ZF Electronics is announcing a change to the DC and E72/E73 switch manufacturing process:

- Overmolding material color will be clear instead of black

Material properties of the potting material are identical and re-validation is not required. No additional changes will be made to the sensors. The black material used for potting remains in short supply and the clear color will be used.

DC series overmolding

E72 overmolding
