PCN-01618

Dear Valued Customer,

MACOM Technology Solutions has a goal of providing redundant manufacturing capability for increased surge capacity as well as an uninterrupted supply chain. In alignment with this goal, we are pleased to announce an additional manufacturing site for the parts listed in the next page. The affected products involve the common control components with a range of different case styles.

In addition to our current manufacturing sites, we will begin manufacturing and testing these parts at our long-standing Contract Manufacturer, Hana Semiconductor Co. Ltd, in Ayutthaya, Thailand. Hana Semiconductor is a valued, high-quality manufacturing partner for many MACOM products. We expect to have this capacity fully in place by 15-Mar-2023. All materials, specifications, and standards remain unchanged. This change will not affect form, fit, function or reliability.

In accordance with MACOM Technology Solutions' customer notification policy, you are receiving this notice because you have purchased one or more of the products listed in the previous two-year period.

Please contact your local sales representative if you have any specific questions.

Sincerely

Jeff Maeda
Senior Product Marketing Manager
