

Announcement

May 2022

Applicable standard change: WB1F series linear CCD scanner

IDEC would like to inform you of applicable standard change regarding our WB1F series linear CCD scanner. Details are as follows:

1. Subject models

WB1F series linear CCD scanner: All products

WB9Z communication unit (option): 1 item (Part number: WB9Z-CU100)

Note: Special products are also included

2. Applicable standards

The standard "IEC/EN62368-1" for our WB1F is replacing IEC/EN 60950-1 (safety standard for information technology equipment) which has been withdrawn on 20 December 2020.

The markings on the products and nameplates remain unchanged.

Note: There is no other specification change.

3. Schedule

Starting from 30 June 2022

4. Part number and prices

No change
