Business Unit	Product Line Code	Type of Change	Action	Date of issue
IFC	BF7	Discontinuation	Notify Distributors and Field	1/3/2013

Phoenix Contact's factory has announced the following product(s) is going to be discontinued. Existing specifications will be met or exceeded. Technical support of the discontinued product will continue, as required. Please review and acknowledge this document and take the appropriate action with respect to your existing inventory and ordering replacement parts.

Reason for Discontinuation:

As Phoenix Contact is continually improving the products we manufacture, we have made the decision to discontinue the KEL frames and grommets and replace them with the new improved Cable Entry System (CES). The CES frames fit onto the same panel cut-outs as the old KEL products, so this will make replacement of the old KEL quick and easy. However, the CES grommets required a design change compared to the basic design of the KEL grommets, this means that the two systems can not be used together.

The CES system provides advantages over the older KEL system with new cone-shaped cable grommets that can achieve IP 65 protection level when used in combination with a screw frame. The cone-shaped cable grommets are available in small and large sizes that allow them to seal a wide variety of cable diameters. The two sizes can be used to handle cables diameters from 2 - 24 mm, eliminating the need for specific-sized grommets. The hinge frame version can achieve IP 54 protection level, and allows for easy assemble of the system and quick replacement of cable sleeves for maintenance purposes.

Furthermore, the new CES system will be certified according to UL 508.

Warranty Information:

N/A

Stock Status

Can existing stock still be used? Y

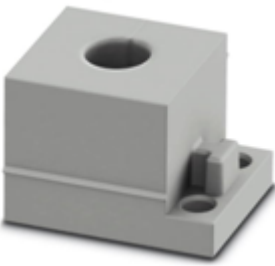

Is mixture of stock acceptable? N

Transaction Dates:

Last Buy from Phoenix Contact: 4/19/2013

Last Scheduled Ship from Phoenix Contact: 5/24/2013
