Product Modification for GMF.3K.085.EANZ and GMP.3K.085.EANZ

The design of the overall rubber boots GMF.3K.085.EANZ and GMP.3K.085.EANZ used on the SMPTE / 3K.93C HDTV (304 **FUW** and **PUW** models) will be changed slightly.

Summary of change:

- 1) Arrows indicating push-pull directions are enlarged
- 2) Grip features enlarged
- 3) Updated the LEMO Logos
- 4) Additional text showing ANSI/SMPTE 304/311M and ARIB standards
- 5) This change affects the standard length boots for FUW/PUW terminated by machine polish

NOTE: The longer version boots for FUW/PUW terminated by the fusion splice method are not affected at this time.

Previous Version

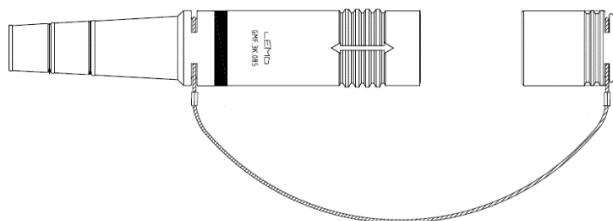

Image of NEW Version (front & back):

Implementation of change:

Boots with the new design will begin shipping Q1 2016 once previous product is depleted from inventory.

If you have any questions or concerns regarding this change, please contact Customer Service or Applications Engineering at 1-800-444-5366 or email: info-us@lemo.com
