Limitless Positioning Options

Aven's ZEN Mount (now available at Aventools.com) arm is a highly versatile, lightweight, multi-angle, telescoping mount that affixes to inspection cameras for optimal maneuverability. The ball joint at the base of the mount provides limitless positioning options. A second ball joint at the top of the stand fastens to your camera via a 1/4" screw mount, and can be angled to virtually any position. The ZEN Mount features a telescoping arm, with an extendable reach of 12in-16in.

- Inspect from nearly any angle with 360-degree rotation
- Extended arm reach of 12in-16in
- Twist lock adjusts reach, arm position, and ball joint angle
- Takes up minimum work bench space
- Includes a heavy duty metal adjustable table clamp

ZEN ARM MOUNT
