

Click™/Slide™ Combo for Arduino Uno or Mega

Spend less time figuring out how to mount components and more time connecting and programming.

Less Frustration. More Innovation.

Slide adapters are an elegant and convenient way to mount an Arduino Uno, Mega, or any board with the same mounting hole configuration.

Once mounted on a Click/Slide combo, your Arduino can be snapped onto your Phase Dock WorkBench™ within seconds. Organize and rearrange your project or prototype easily.

Or, deploy the Slide without the Click as a more permanent mounting platform. The raised bosses protect the vulnerable components on the underside of the Arduino against scraping or damage. Plus, you get the convenience of easy on and off.

Hex nuts installed in the raised bosses enable you to attach and remove electronics over and over without damaging the Slide.

Item	Qty	Specifications	Purpose
Arduino Slide	1	2.53" x 3.36" (64.3mm x 85.4mm) 3D-printed ABS	Mount and protect any board with same mounting hole configuration as Arduino Uno.
2x3 Click	1	2.53" x 3.36" (64.3mm x 85.4mm) 3D-printed ABS	Attach to Universal WorkBench base.
Hardware Packet	1	4 M2.5 hex nuts 4 M3.0 hex nuts 1 M2.5 x 20 machine screw 4 M2.5 x 8 machine screws	Click/Slide assembly Hex nut insertion tool Attach electronics

Electronics Mounting Guide

No matter what electronic component you use, there is a way to mount it on the Universal WorkBench. Download the Electronics Mounting Guide eBook at <https://www.phasedock.com/electronics-mounting-guide>

"All I want to say is...as a person that has been prototyping for 35+ years, *this is the best setup I have ever worked with.*
Thank you."

— LEWIS T., SAN ANTONIO, TX
