

EFFECTIVE: September 1st, 2022

Date: August 3rd, 2022

Dear Fluke Distributor,

Due to a component shortage, we are announcing the obsolescence of the FLUKE-830/BT Laser Shaft Alignment tool, effective September 1st, or until limited existing inventory is depleted.

We are also announcing the expedited release of the replacement product, FLUKE-831 Laser Shaft Alignment tool. The new product will feature new touchscreen tablet interface, with improved user experience and alignment features. **The FLUKE-831 will be open for orders September 1st.**

Master load sheets for the FLUKE-831 will be published on September 5th, with sales and marketing assets following on September 19th.

Fluke will maintain service of FLUKE-830/BT, per standard 5 year post obsolescence terms.

This letter is your notification of our product change.

PLEASE INFORM ALL RELEVANT PERSONNEL WITHIN YOUR ORGANIZATION.

Obsolete Items			Replacement Items		
Product model	Item Number	Description	Replacement Model	Item Number	Description
